National Action Agenda

Focus : land take / urban sprawl / soil sealing

- Medium-term target : « **Zéro artificialisation nette** »
- Putting in synergies legal tools : spatial planning, biodiversity law, urbanisation law...
- Principles :
 - avoid, reduce and offset impacts,
 - « recycling » land uses,
 - turning useless urban spaces into natural soils...
- Actions :
 - 20 projects illustrating best practices in restoration of brown-field sites by 2020
 - 10 projects turning urbanized soils into natural soils, by 2020.

Focus : Biodiversity footprint of businesses

- Action : define an indicator related to the impact of businesses on biodiversity
- Method : the French platform for Corporate social and environmental responsibility to develop proposals
- Aim : strenghtening biodiversity reporting by businesses
- Priority areas :
 - Building and materials,
 - Agro – industry,
 - Energy,
 - Chemical industry

Measurability and the post-2020 global biodiversity framework

- A key issue for the negotiation :
- Draft COP14 decision on item 17: refers to « *considerations related to ambitious, measurable, realistic and time-bound targets, monitoring and reviewing implementation* »
- EU Council Conclusions for COP-14 : refers to « *targets that are ambitious, realistic, and as far as possible, measurable and time-bound, strengthening and building upon the current Aichi Targets, driving action and allowing progress to be tracked effectively* »
- Seeking parallels with the Paris Climate Agreement
